Prayer Need

Dear friends, family and Prayer-Team,

I'm 'back to square one' with the bronchitis and sinusitis I contracted in Monterrey, so I ask for your intercessions.

I had 2 or 3 days last week where I felt almost-well, then it all came back hard and fast this past weekend. I've canceled serving at missions conferences the next 2 weekends, in order to rest and be well for my upcoming skin cancer surgery. Frankly, I feel pretty bad, too ...with fever, tight chest, headache, malaise, etc.

My ENT this morning ordered me to stay home ...my body already thought that would be smart, but I just needed to hear him say 'no way!' He saw lots of infection with endoscopy, did a culture to see if some strange germs came out of the Monterrey hotel heating system. He instilled some meds and changed the intra-sinus antimicrobial sprays and the oral antibiotic I'd been on. He prayed for me, too, as he always does.

Please pray that I will rest well and compliantly, that these infections would be healed quickly and completely so I don't have to reschedule / delay my Mohs surgery (dermatologist) on the 26th and the plastic surgery on the 27th (to rebuild the side of my R nostril). Pray also that I rest in and trust God's timing and means for final financial provisions I've yet to discover.

Bless you, and thank you for your love-through-prayer!

Gratefully in His grip,
Betsy
